SCHEMES THAT WERE DEVILISH IN THE EXTREME.

Greed of Gold Ontweighed Every Other Sentiment in the Hearts of Men Who Proposed Coldblooded Murder in Order That a Paltry Four Hundred Dollars Might Be Obtained.

Minneapolis, Dec. 9 .- If the confession voluntarily made by Blfxt, the jamitor of the Ozark flat in the presence of Mayor Eustls, the county attorney and the enter of police today is true, Harry Hayward fired the shot that killed Catherine Ging, and Blixt assisted him in disposing of the body. Blixt told of his first conversation with Hayward, about one month be fore the munder. It was in regard either the holding up or the silling of a Chicago man who had loaned liayward \$400, the object being to re-thin possession of any paper which the man might have as an evidence of liayward's indebtedness.

Bilixt's ignorance prevents him from giving any intelligible idea of just what the transaction was to be, further than that there was to be a hold-up or a murder. Hayward proposed to send Blixt to Chicago and to have him return from that city when he was wanted. Blixt refused to go into it and says that Hayward won. wanted. He then went on to tell that Hayward had persuaded Miss Ging that green goods could be easily circulated through the medium of her business as a dreasmaker. She fell in with the idea, and on the night of the murder Hayward had told her that he had arranged for her to meet a green goods dealer on the outskirts of the city. They started off on the ride together. They met Blixt, and Hayward induced her to let Blixt drive her to the place of meeting with the assurance to her that he would himself follow immediately in another buggy and be present.

FIVE PERSONS INJURED.

Some Sad Accidents at a Fire at

Kansas City. Kansas City, Dec. 2.-Five persons very more or less seriously injured in a fire that occurred early this morning at the house of F. W. Milcher, at Four-teenth and Harrison streets. The Mitchler family, five in number, slept on the third floor and when awakened by smoke entering their rooms were thrown into a banic. Mrs. Mitchler and her daughter Edith, aged 16. jumped to the ground before any one could reach them and landed on the stone pavement. Miraculously, no bones were broken, but both are serfously, though not fatally, injured. Mr. Mitchler and Annie, aged 6, were unable to find an exit and were bally burned before being rescued by the firemen. Mr. Mitchler's mother fell down stairs and sustained a broken arm. The pecuniary loss was small.

THE FOREIGN MAILS.

Improvements to Be Inaugurated

Washington, Dec. 3.—Postmaster-General Dissell and Superintendent of Foreign Mails Brooks have decided to provide the necessary arrangements for securing to merchants in Chicago, St. Louis, Baltimore, Boston and Philadelphia, the cities authorized to make up pouches for foreign points, the advantages of forwarding foreign mail by the latest train that connects with the steamlers at New York. The plan will obviate the necessity of having this mail handled and with any billed at the New York postoffice, and messengers in cases of every close connections will meet the incoming train at the depots and carry the contents of the stomach. As the remail direct to the steamers. The arrangement will take effect January 1. Regarding Them.

Washington, Dec. 3.—The week's programme in the Senate will depend argely, if not entirely, upon the deision in the Democratic Steering committee with reference to the amendment in which the bills preferred by he Democratio caucus are to be taken up. This point was left entirely to the Steering committee, which Senator Gorman, its chairman, says will probably meet Monday. The committee will then, at some subsequent meeting, decide whether the Nicaragua sill, bankruptcy bill, the New Mexico and Arizona bills, the Indian territory bill or the resolution for the election of senators by the people shall have precedence. It is not supposed by anyone that a currency bill will be given first place, for the reason that no currency hill has yet been formulated. The friends of the other bills will unquestionably press their respective

measures, and it is as yet impossing to say which of the bills mentioned will receive preference.

While the committee is undecided, Senator Morgan will be improving hisopportunity to press the claims of the Nicaragua bill. He has given notice of his intention to call the bill up on Monday, and he will open the proceedings of the day after the disposal of morning business with a speech devoted to the explanation of the merits of the bill. It is probable that this speech will consume the greater part of the day. Mr. Morgan will speak, regardless of what the caucus committee's decision may be, or whether there shall be any decision previous to Monday afternoon. The speech made, the decision of the committee will probably be allowed to control as to whether the canal bills shall continue to receive attention or shall be deposed by one of the other favored measures For the rest Senator Morrill has given notice of an intention to present, as is his usual custom at the beginning of a congressional session, his
